> *"Before mass leaders seize the power to fit reality to their lies, their propaganda is marked by its extreme contempt for facts as such, for in their opinion fact depends entirely on the power of man who can fabricate it."* ~ **Hannah Arendt, The Origins of Totalitarianism**

Lies, lies, and more lies is the rule of the day concerning all government, mainstream media, including most alternative media as well. We now live in a world made up of constant and continuous propaganda, false flags, and deception, which has led to the complete dumbing down of this society; so much so as to have turned the masses into a giant herd of indifferent fools. Please understand that this is not arguable, as the acceptance of rule, and therefore the admission of being a slave, negates any and all rhetoric targeted toward the false claim that the 'people' desire freedom. That is simply not the case.

Everything is a lie, everything is staged, and everything is planned; therefore nothing coming from any political entity or party, nothing coming from any mouthpieces of government, nothing coming from any false 'authoritative' source, and nothing supposedly being done in the name of 'safety' of Americans, should be believed. Absolutely all should be immediately disregarded unless and until it can be proven beyond doubt to be true. All should be disbelieved, heavily scrutinized, and questioned to find any truth that may exist, or more likely, may not exist. The "powers that be" are not interested in you, and never have they been, as the allure of political power is the continuous pursuit of wealth and control. That pursuit by the worst element of society, that being the entire political class, can lead only to a totalitarian State. It is already here, but is now expanding at breakneck speed toward hell on earth.

One could legitimately go back to the so-called beginning, 250 years or so ago, but need not cover than much ground to see the stark progression of tyranny that has now captured this entire country. Since the false flag (inside job) attack on 9/11, just 24 plus years ago, this entire political and fascist absolutist system, has consumed and sealed off nearly every avenue of freedom possible. That attack, most assuredly a Jewish (Zionist) operation with total collusion with the U.S. government and its 'intelligence' and enforcement services, brought about insane restrictive legislation; not meant to protect, but meant to control all the masses. This began with the pre-planned, and long since completed, Patriot Act, which vastly changed the national landscape of power, control, and surveillance. In addition, it brought more continuous war which allowed the very rich to get richer, while most all the harm was levied toward made-up 'enemies,' and the entire American citizenry.

The list of false flags and staged and faked events that have taken place throughout our history is enormous and unending, but multiple important false flags; political, economic, and psychological, have taken place just in the recent past, up to and including the plotted professional assassination [or faked/staged assassination] of Charley Kirk. There are so many holes and anomalies in this fraud, as to eclipse any logic whatsoever. The reason this may not bring down this heinous State, is because of the massive loss of intellect and gross indifference of this proletariat herd called the American populace. This, in large part, is due to division and divisive political leanings that breed hate and monstrous apathetic attitudes toward the reality of this heinous behavioral shift toward ignorance and immorality.

Besides the 9/11 hoax, which led to pre-planned war in several countries, none of which ever attacked this country, the Oklahoma City bombing which was staged and carried out by sinister intelligence services, the fake Sandy Hook shooting, the crisis actor fraud at the Boston Marathon, the completely bogus 'covid pandemic' scam, the Ukraine/Russia war, the Israeli false flag fraud of October 7th, and now the professional assassination of Charlie Kirk, most likely a Mossad/CIA operation. (I cannot prove this yet)

This very current and short list is but a handful of the many deceptions and staged terror events used to propagandize this gullible crowd of Americans who view this heinous government structure as their 'god.' Many (most) mass shootings, almost all school shootings, international proxy wars, U.S. 'enemy' lists, among many more acts of brutal terror and murder have taken place. The reality of this tactic used by governing forces at one level or another, is that many more false flags and preconceived fake 'emergencies' are coming, and probably coming soon. None of this takes into account the money printing and monetary upheaval, the AI takeover, the financial and inflationary plots, or the corporate ('private') government partnerships which are by pure definition fascist.

The beginning of the end is already upon us, so where do we go from here? Regardless of what anyone claims, there is but one solution, and that in no way involves any State or government solution whatsoever. Government is always the problem and the root of evil, so political solutions are therefore impossible. To think differently, would be akin to the old adage of asking two wolves and a sheep what is for dinner. The answer is

obvious, just as is the question of government, for regardless of who is ruling over the politicians, they (political class) are the middlemen of tyranny, and without this government structure, the actual ruling class would be held impotent in its effort to control all without that connection and political conduit to the pathetic masses.

It is the responsibility of every single individual, alone and en masse, to throw off rule in favor of freedom. Until this population is learned enough, and aware of the danger of rule by force, regardless of the underpinnings of that force, whether asinine constitutions, arbitrary State laws, propagandized fearmongering of the people, or any other tactics used by false authority morons seeking power, it will forever be dependent on a masterclass of political criminals. There is no good whatsoever that can come from government, as evil begets more evil, and the longer the political State is allowed to exist, the more evil it will become. To not see that at this juncture, is pure idiocy.

This latest open and public killing will lead to likely more civil unrest, calls for more restrictive behavior modification, universal digitization of assets, mass surveillance and control mechanisms over all, gun 'control' legislation, fake hate speech laws requiring draconian police measures, and more martial law around the country. And this is just the beginning.

In the meantime, think of this and reflect. Every single one of you who supports government, whether republican, democrat, libertarian, independent, or any other fake political designation, any who support this nation-state due to nationalist insanity, and any who "support the troops' who murder on orders for a living, are 100% complicit in the live-streamed genocide of millions, mostly innocent children, at the hands of the Zionist Jews in Gaza and beyond. Yes, you are the problem, because you support not only rule over your own lives, but rule over all others as well, and by force of arms. Being complicit in evil is a pure statement of confessing to evil.

It is up to you, each of you, to completely disregard this criminal and horrific government. It is up to you to not comply with any law that is not based on natural law principles. It is up to you to disobey all false authority, (government) and to do so in large numbers. Once again for the mostly obtuse among you, there are 340 million of us, and a handful of the ruling monsters. Violence and revolution are not necessary in

order to defeat and drive this ruling class into oblivion. All it takes is courage to actively dissent by those being ruled voluntarily, and the State will fall.

> *"Those who are capable of tyranny are capable of perjury to sustain it."* **~ Lysander Spooner**
